As a courtesy to our insured patients, we accept assignment of your benefits and will submit claims to your insurance company. We will help you to receive your maximum allowable benefits.

All of our doctors will diagnose treatment based on your dental health not your insurance coverage.

Dental insurance isn't really insurance (a payment to cover the cost of a loss). It is actually a money benefit, typically provided by an employer, to help their employees pay for routine dental services. The employer purchases a plan based on the amount of the benefit and how much the premium costs per month. Most benefit plans are only designated to cover a portion of the total cost of a person's necessary dental treatment.

If your insurance has not paid within 90 days of service rendered, you will need to make full payment to this office and will be reimbursed when your insurance company pays. After 90 days, the patient is

responsible to pursue payment from the insurance company. All current documentation will be provided by mail in order to assist in your inquiries. **The insured has a better ability to deal with the insurance company and the employer is responsible for the policy.**

Please indicate your understanding and acceptance of these financial policies by signing below. For your convenience and the convenience of the practice, it is understood that this executed copy of the Financial Policy shall cover your dependent children who are patients of the practice.

Adjunctive Oral Cancer Screening Acceptance Form

Complete each time the examination is performed and place in the patient's file

Our practice continually strives to provide important enhancements in oral health care for our patients. We are concerned about oral cancer and look for it in all at risk patients.

One person dies every hour from oral cancer in the United States.

Late detection of oral cancer is the primary reason that mortality rates are so dismal. As with most other cancers, age is the primary risk factor for oral cancer. Though tobacco use is a major predisposing risk factor, **25% of oral cancer victims have no lifestyle risk factors.**

Oral Cancer Risk profile

Increased risk

- Patients age 40 and older (95% of all cases)
- 18-39 years of age combined with any of the following:
 - Tobacco use
 - Chronic alcohol consumption
 - Oral HPV infection

Highest risk

- Patients age 65 and older with lifestyle risk factors
- Patients with history of oral cancer
- **25% of oral cancers occur in people who don't smoke and have no other risk factors.**

We find that using ViziLite Plus along with a visual oral cancer examination improves our ability to identify suspicious areas that may have been missed during the conventional examination. Early detection of precancerous tissue can minimize or eliminate the potentially disfiguring effects of oral cancer and possibly save your life. ViziLite Plus is a painless exam that gives us a better chance to find any oral abnormalities you may have at an early stage.

Dental insurance might not cover the ViziLite Plus exam. However, this office is happy to verify your coverage for you and will also provide you with a medical insurance form for you to use to file this procedure with your medical insurance. The fee for this enhanced examination is \$ 49.

Yes. I authorize the clinician to perform the ViziLite Plus exam along with the standard oral cancer examination. I accept financial responsibility for this enhanced examination.
